

TIM DEBEVEC RESUME

THANK YOU

FOR ACCEPTING MY RESUME

It is essential in the creative industry to be pushed and challenged, as innovation comes from such motivation. Throughout my career I have assembled, developed and managed many different creative teams to meet the objectives of both the company and the project. Creating an atmosphere conducive to inspiration and cooperation has been key to working with, and leading teams of all sizes.

In my experience, I have always tried to develop systems, procedures and resources to ensure efficient and effective workflows while still maintaining a flexible environment for growth.

I have worked with many different companies and in many different industries, and while the projects may differ, the need for inspiration is the same. Being creative is more than a career to me, it is a need... it is a lifestyle.

This position is particularly interesting to me as I believe I can contribute to your team's creative goal. You can view samples of my work at timdebevec.com. Please let me know if you would like me to provide you with anything else. Thank you.

Sincerely,

Tim Debevec
